

ANSH AGARWAL

Ghaziabad, Uttar Pradesh, India | +91 8810310755 | anshagar2810@gmail.com | linkedin.com/in/anshagar2810 | github.com/Anshagar2810

PROFESSIONAL SUMMARY

Results-driven AI & ML Engineer with hands-on experience in Python, deep learning, IoT, and web technologies through Airtel and IBM internships. Proven track record in architecting end-to-end intelligent systems — from automated database migrations (MySQL to PostgreSQL) and scalable IoT diagnostic dashboards to custom NLP chatbots. Strong foundation in neural networks (TensorFlow, PyTorch), predictive modeling, and full-stack software engineering.

EDUCATION

B.Tech in Computer Science Engineering IILM University, Greater Noida	2023 – 2027
12th Grade (CBSE) GD Goenka Public School, Ghaziabad	2022 – 2023
10th Grade (CBSE) GD Goenka Public School, Ghaziabad	2020 – 2021

INTERNSHIP EXPERIENCE

Networking Automation Intern Airtel - Architected a Django portal to automate CI activation workflows, reducing request TAT processing time by 45%. - Migrated backend application databases from MySQL to PostgreSQL for 10,000+ records with zero downtime.	May 2026 – July 2026
Deep Learning Intern IBM Pune - Deployed an AI customer support chatbot using Gradio and Ollama, reducing manual ticket volume by 35%. - Integrated NLP intent classification models, achieving 92% automated query resolution accuracy. - Streamlined support workflows, accelerating average query resolution speed by 3x.	June 2025 – July 2025
AI/ML Intern IBM Pune - Analyzed 50,000+ telecom CDRs to identify illegal Wangiri call fraud patterns. - Developed predictive ML models to classify high-risk calling anomalies with 94% precision. - Optimized feature engineering pipelines, boosting fraud detection accuracy by 18%.	June 2024 – July 2024

ACADEMIC PROJECTS

Smart Ward Early Warning System (IoT + AI) Tech: ESP8266, DS18B20, Node.js, MongoDB, ThingSpeak API, Twilio, HTML, JavaScript - Engineered a real-time IoT patient vitals monitoring system tracking vitals with <2-second latency. - Implemented on-device risk analysis and automated WhatsApp alerts, accelerating clinical response by 50%.	Feb 2026
AI-Based Knee Osteoarthritis Detection System Tech: Python, Deep Learning, Xception, MobileNet, Image Preprocessing, TensorFlow - Built a medical imaging classifier using Xception and MobileNet CNNs, achieving 93% accuracy across knee X-ray stages. - Automated image preprocessing and diagnostic report generation, reducing radiologist evaluation time by 60%.	Jan 2025
Multi-Mode Smart Robotic Car Tech: Arduino Nano, Arduino Uno, Bluetooth Module, Ultrasonic Sensor - Constructed an IoT robotic vehicle supporting tri-mode control via hand gestures, Bluetooth, and voice commands. - Integrated sensor arrays and wireless modules for seamless low-latency (<50ms) mode switching.	Nov 2024

TECHNICAL SKILLS

Programming Languages:	Python, C, SQL, JavaScript
Machine Learning & AI:	TensorFlow, PyTorch, Deep Learning, NLP, Predictive Modeling
Web & Backend:	Django, HTML, CSS, JavaScript, Node.js
Databases:	PostgreSQL, MySQL, MongoDB
Tools & Platforms:	GitHub, VS Code, Arduino IDE, Gradio, Ollama
IoT & Embedded:	ESP8266, Arduino Microcontrollers, Sensors (Ultrasonic, Oximeter, Temp)
Cloud Services:	AWS (Cloud Web Application Builder), ThingSpeak
Core CS:	REST APIs, System Design

CERTIFICATIONS

- Python for Everybody – Coursera (Apr 2025)
- Cyber Job Simulation – Deloitte (Jun 2025)
- AWS Cloud Web Application Builder – AWS Training & Certification (Feb 2025)
- AI, Machine Learning, Python, C, Java, SQL – Infosys Springboard (Jan 2024 – Aug 2025)

ACHIEVEMENTS

- Awarded 1st Position in Technical Writing Competition at IBM Ice Day (Jan 2025)
- Secured 3rd Position in IBM Ideathon at IILM University (Feb 2026)
- Selected for IBM x AWS Hackathon & GDG Hackathon at IILM University (2025 – 2026)
- Participated in National Robo Race Competition at IILM University (2024)

CONFERENCES & WORKSHOPS

- Presented at IEEE-NIELIT International Conference, Jaypee Residency Mussoorie (Oct 2025)
- Attended TEDx Conference at IILM University (Feb 2025)

LEADERSHIP & RESPONSIBILITIES

- Served as Joint Secretary & Chairperson for IEEE Student Branch (Jan 2025 – Present)
- Coordinated University Treasure Hunt Event at IILM University (Sep 2025)
